

Bethell-Delfino Agriculture Building

Fragrance Free Building Policy

Please be aware that this building has a fragrance free policy in effect. Several people who work in the building are sensitive to smells (including but not limited to; perfumes, colognes, plants, essential oils, food preparation) to the point of becoming ill with sinus issues, migraines and nausea. If you have business in this building you are expected to come free of any fragrances. The offices are closed environments and strong smells do not easily dissipate. People may be asked to leave the premises if this policy is not followed.

Thank you for your cooperation.
